### administration

Mr. C. a. Waltz Superintendent of the Mansfield City Schools

We Walty has now been Superintendent of the Mansfield City Schools for two years. He has shown himself to be very capable and no doubt his administration will continue to be quite successful. He is a very forceful man and an ardent advocate of soundness of school principles.

#### Mr Bur

We Beer is one of the fines ( leading in scholastic adverties, a very obliging man in every way passible, and one of the best administrature the school has ever known. The has been principal to me as the years pass. We Beer, thoroughly a moneyal Senior Togle backer, make it his valicy to become a just of weighting that tends to the good of the school. The has elarge been a true friend to leachers and standard and take a very greatenterist end affaired which they well help

her Principle has contend of a carly in correspond on his part marrowny things around him, and the senior classes regard that graduate takes them from desect content with his influence. He may be issued

for every chey may be It is succeedy weahed that all that we benefit from the many sareful guidance for many years.

#### 71/2 Bushop

The Bushap, our issessiant Principle, is one of the most interesting characters known to us the school, and we always admire that recessant help school, and we always admire that recessant help with us. Integrety and layally fairly emanate from him and on the shortest acquaintance me find freat respect for his honeaty and directness. It succeeds quite with an getting into close ton lack with students, which strong indicates where his interests he when one needs advice on any matter, he is certain to get it intelligently,

from Mr Bishop It is cution that I deep respect and approciation exists for him me the school.

### Student Representative Committee

The Student Elegereentative Committee is, as its name implies, a gray of elistents chosen to represent the student body at large The purpose of this committee is to incoverage and maintain it indent responsibility in academic as well as extra curricular activities to factor cooperation between the students and faculty, and to promote the seneral welfare of the school.

The membership of this commettee consists of one delegate and one afternate from each home room except 210 and 211 which are represented by four student and one alternate face The promised has be proved to appoint three membersal

largesfrom the student body

As be slighte for this commettee a student must be an undergraduale must have an average of a with no failing grades, must carry a normal amount of with in major subjects, and must be reliable Sine committee was regarded at the second

The committee has established a moneton septem, a satisfactory los found of supertinent, and has truly grownoled the general welfare of the school.

The project worked upon first remedie the year was the Red and whole Hand Back while was were worth while propel and the result was more gratifying

The project for the second semester was the developing of a method of keeping

an accural record of the extra currecular activities of the students.

She officers seeled in Systember were both Altenfield, president, Anskell Smith were president, Robert Frehler, secretary, and Most Jugle, treasurer when election was held the somewise, Mrs Shoemaker was elected president; And Provide were president forothy Caldwell, secretary, and Syman Elected president freasurer

# Scholarship Club

The Scholarship blub was organized in 1928 for the purpose of helping pupils to become interested in scholarships numbership is offered only to those who have fourteen points, this is the minimum limit to counts four sounds, Others, and there have buy points on four major subjects are counted, and the grade in a fifth subject must not be lower than I love after becoming a member of the pupil fails to attend regularly, he is dropped from the roll

One of the most our tanting things accomplished by the Scholarship llut in the -part year was the oragress made in tutoring pupile who had fallen behind in their work a student belonging to this organization who is graficient in one line of school work may offer his services trang pupil who might desire his assistance in his studies

Forese other members have looked up the entranel requirements of a number of colleges heavefurements were lated in an orderly fashion and placed on file in the library. The files not only help the pupil plan his high school course for the college he is going to enter, but also their give him the satisfaction of knowing that he has consulted a wide range of information.

Recently the club tack up a new study that of parlimentary law affect the surveys meeting and program, the president becomes one of the mass meeting. For the special of drell the group chooses a new chairman. They then proceed with another meeting in which motions are made, seconded, and carried The chairman peeps has position only as long as he makes no mistakes. When he makes an error, the one who torreste how takes he place and the meeting continues. This as enjoue can set us a very valuable and practical plan: for nearly as everyone some timeor wher in his fife has to serve as an officer, or chairman of a group or club. A little training such as a offered in the Scholaribe club well not then tome amuse.

Officers are elected each semester my Gramer is faculty advisor for the club and is keenly interested in all of its undertakings

# Industrial line Separtment

The Godestrial lite Department of the Manefield Sinior High School is composed of the woodworking and mechanical drawing classes, laught by you get Smith

At the goresent time the department consists of about sity boys who are advinced in the industrial work. Recently an enganization has been formed so that the boyse may have a better knowledge of the advanced work and also that the people of Manifeld might know more about the seemed work being done by this department. In exhibition is being stimed and is expected to be closer in some downtown store carly the spring

The advantages of this course are many First the bay learns to have bee plane and to think out his problems before he has started his project. He is then slowed to jo to the shop and complete his textative. Included in the study of woodworking is the subject of frestry in the student should know the different hands of word.

The language of modern industry is told in mechanical training, an eximple is shown in the defenction of a chair. A complete definition is almost impossible but through the medium of much drawing it may be quickly and lasely explained. This fact underlies the drawing of plans for all buildings and mechanical-parts of particular construction. Be long as construction tannol be told in words, drawing well be in demand.

The Vicational course offers to the student a training in the fundamentals of a trade iducation. The course deals with the technique and with of the metal tracks is Mapled to our local industrial requirements

At trains one in the primary principles of industrial mathematics, mechanical drawing, and applied physics. The course further offers the only sateway to an apprenticiship training in any of Menifields industrial plants. The course holds out to young men with nature mechanical ability and a kind with an apportunity equal to that of any other course in the manifield Senior High School.

Seventy five per cent well need this special training later in life.

# Congratulations to the Graduating Class

In our recognition of this important event in the lives of all those graduating from the Mansfield Senior High School, our heartiest congratulations are extended.

You are proceeding from this attained goal of accomplishment into a new and larger sphere of activity. Some have definite objectives and will pursue the things they like to do.

Success depends upon a wise decision — be sure you like to do those things — that they are constructively sound — that they represent a value to industry and society — then do them with enthusiasm.

That's all - and good luck

#### ALL THE WORLD'S A STAGE

A LL the world is a stage and setting for the part O-B plays in helping to develop natural resources, to force forward the frontiers of civilization, and to further industrial progress.

In Africa, the challenging roar of the lion is now answered by the humming sound from electric motors. In the Orient, the tinkling temple bells now ring in unison with the throbbing of industry. In the land of the Aztecs, gold and silver bearing ore is now hauled to the surface by electricity. In Europe, the old methods of hand production are fast giving way to the new era of machine production.

Whenever electricity has been harnessed to the back-breaking loads formerly borne on human shoulders, there you will find O-B products helping to lighten the burden and to do the work cheaper and more effectively. During the past year, materials made in Mansfield have been shipped to 61 different countries.

#### THE OLD DEVIL

Two little girls were on their way home from Sunday school, and were solemnly discussing the lesson.

"Do you believe there is a devil?" asked one.
"No," said the other promptly. "It's like Santa Claus, it's your father."

"What do you think of our stadium?"

"It is certainly wonderful. And now I would like to go through the curriculum. They say you have a fine one here."

Teacher-What do we call a man who keeps on talking when people are no longer interested?
